Zebra® ZXP Series 3™ Printer

Instant Card Issuance Solutions – EMV Ready

Produce high-quality magnetic stripe or EMV cards instantly and securely at your branch with the Zebra ZXP Series 3 printer. With its exceptionally small footprint and high-capacity ribbon, it is one of the most efficient and affordable options for instant issuance.

You can offer your cardholders convenience without compromising security or quality with our PCI-certified security module and secure PIN-entry device.

In addition, you can extend your card program to NFC-based mobile solutions through the ABCorp™ Secure Data Center.
